

PACK WITH LOVE

Youth Service Club

Student Charter

Independent club charter | June 2026 · Amended September 2026

Love First. Create with Joy. Serve with Purpose.

1. Who We Are

Pack with Love Youth Service Club is an independent youth-led service club designed primarily for elementary and middle school students who want to use creativity, teamwork, and compassion to bless children and communities.

As the club grows, high school students may also participate. They may continue serving as members, take on expanded leadership or project-support roles, and encourage younger participants as High School Student Mentors under Adult Advisor guidance.

Pack with Love may collaborate with international mission outreach programs, local VBS and children's ministry programs, churches, schools, nonprofits, and other trusted community partners on individual projects that serve children and families. Each partnership is project-specific and does not change the club's independent status. Pack with Love does not represent, speak on behalf of, or make official statements for a partner organization unless specifically authorized in writing by that partner.

The club was founded by Joanna Zhang as a sixth-grade student, with the desire to help children feel loved, seen, and remembered. Pack with Love gives young people a meaningful place to create, serve, learn, and grow as caring leaders.

1.1 Our Christian Foundation

Pack with Love is rooted in Christian love, compassion, and service. We believe that every child is created with God-given dignity and deserves to be seen, valued, encouraged, and cared for.

Our desire is to reflect the love of Jesus through joyful creation, thoughtful service, respectful relationships, and practical care for children and communities. We seek to serve with humility, kindness, honesty, and generosity.

When a project is carried out with a Christian church, VBS program, children's ministry, or mission partner, Pack with Love may share age-appropriate messages of Christian love and hope, including the message that Jesus loves each child, when welcomed and approved by the local partner.

Pack with Love serves children and families with respect. No child or family is required to attend a church activity, share personal information, or participate in a follow-up program in order to receive a backpack or care item.

2. What We Do

Pack with Love creates child-centered care projects, with theme-based backpacks as its signature project item.

Each backpack project is designed around a child-friendly backpack with a theme-based coloring design on the front. Children can color and personalize the backpack as part of a joyful and meaningful activity.

Depending on the needs of the children and the partner program, each project may also include a theme-based coloring book, T-shirt, activity materials, encouragement items, school supplies, practical care items, or other approved gifts. The contents of each

project may change based on the children served, the partner's goals, and the practical needs of the setting.

For each project, the club may:

1. Listen to the needs of the partner program and the children served, including ages, cultural setting, practical needs, program environment, transportation or storage considerations, and partner goals.
2. Develop a theme-based project that may guide backpack artwork, coloring book pages, T-shirt design, activity materials, encouragement messages, and approved care items.
3. Design coloring-friendly backpacks and coordinated project materials that are child-friendly, appropriate for the setting, and suitable for the partner program.
4. Select additional items when appropriate, including approved gifts, school supplies, bookmarks, simple handmade items, activity materials, practical care items, or other resources that fit the project theme.
5. Choose colors, materials, gifts, and supplies that are age-appropriate, culturally respectful, safe, useful, and practical to pack and transport when shipping is needed.
6. Invite support through adult-approved and properly supervised fundraising, donation, volunteer, professional-service, and communication channels.
7. Support production, preparation, packing, documentation, and distribution in age-appropriate ways under Adult Advisor supervision.
8. Provide approved activity pages, encouragement materials, invitations, or other simple resources for voluntary, partner-led follow-up when a trusted local church or partner program has the desire and capacity to continue connecting with children and families.
9. Learn from each project, thank partners and supporters, collect appropriate feedback, and use lessons learned to strengthen future projects.

Through every project, Pack with Love seeks to give children something useful to carry, something creative to enjoy, and messages of love and encouragement that remind them they are welcomed, valued, and remembered.

3. Why We Do This

For Children and Communities

Pack with Love has a double purpose: to care for children and communities, and to help young people grow through meaningful service. We want every child who receives a Pack with Love project item to know:

- You are loved.
- You are seen.
- You are remembered.
- You matter.

As described in Section 1.1, when a project is carried out with a Christian church, VBS program, children's ministry, or mission partner, Pack with Love may share age-

appropriate messages of Christian love and hope when welcomed and approved by the local partner.

Our goal is not only to give useful things. Through every project, we want to share love, hope, dignity, care, and encouragement with children and communities.

For Students

Students are not only helpers at a packing event or distribution activity. As they are ready, students may learn to listen to partner needs, develop ideas, design project materials, support fundraising communication, prepare items, document a project, reflect on feedback, and help improve future projects.

Through these experiences, students may grow in creativity, responsibility, teamwork, leadership, gratitude, and service.

4. Who Can Join

Pack with Love is designed primarily for elementary and middle school students who want to use creativity, teamwork, and compassion to serve children and communities. Students may participate in age-appropriate creative, design, service, fundraising, packing, outreach, documentation, or project-support roles.

As the club grows, high school students may also join or continue participating as members, High School Student Mentors, and project leaders under Adult Advisor supervision.

Membership and Parent Involvement

Students may join Pack with Love with parent or guardian permission. Because many members are elementary and middle school students, parent or guardian involvement is an important part of participation.

Parents or guardians may help communicate with Adult Advisors, review activity information, provide transportation or supervision when appropriate, support age-appropriate project tasks at home or during events, and help ensure that students can participate safely and responsibly.

Student participation must also follow the requirements of the relevant project, meeting, service activity, fundraising event, school, church, or partner program. Parent or guardian permission may be required before participation in specific activities, public presentations, fundraising events, off-site activities, travel-related activities, or any activity involving photos, stories, or public communication.

Membership does not require a financial contribution. Participation is based on interest, readiness, respectful conduct, parent or guardian support, and available project roles.

Members are expected to respect:

- the mission, values, and project guidelines of Pack with Love;
- partner organizations and local service programs;
- fellow members, parent volunteers, and Adult Advisors;
- donors, supporters, and community partners; and

- the children, families, and communities served through each project.

5. Leadership

5.1 Founder and Founding President

Joanna Zhang is the founder and founding president of Pack with Love Youth Service Club. She leads the club's vision, helps guide the yearly theme, supports creative direction, and coordinates the student leadership team with Adult Advisor guidance.

5.2 Founding Designer

Ethan Yao is the Founding Designer. He helps create artwork for T-shirts, cards, coloring pages, simple gifts, and other project materials.

5.3 Founding Finance & Impact Leader

Vera Sun serves as the Founding Finance & Impact Leader. She helps students communicate the purpose and impact of each project through age-appropriate fundraising materials, donor thank-you messages, simple budget-learning activities, project updates, and Annual Impact Report support.

Under Adult Advisor guidance, she may help explain how donations support approved project items and services. She does not collect, hold, authorize, approve, or manage club funds.

5.4 Founding Community & Outreach Leader

Gabriel Leo serves as the Founding Community & Outreach Leader. He helps welcome new families into Pack with Love — sharing the club's projects with friends, classmates, churches, and communities, and helping interested families understand age-appropriate ways to participate. Under Adult Advisor guidance, he may help introduce new participants, share approved project information, and connect families with the appropriate Adult Advisor. He does not register participants, manage member records, or make commitments on behalf of the club.

5.5 Founding Hearts & Encouragement Leader

Dino Wang serves as the Founding Hearts & Encouragement Leader. He helps prepare thank-you cards for supporters and age-appropriate encouragement materials (including Hearts to Hearts content) for the children served by each project. All outgoing materials follow Adult Advisor review, and mailing or delivery is handled through adult-managed channels.

5.6 Future Youth Executive Team

As the club grows, it may establish a formal Youth Executive Team to lead more consistently and sustainably.

Position	Main Responsibility
President	Leads the club's yearly vision, theme, major decisions, and team coordination.

Vice President	Supports the President, follows up on progress, and helps coordinate teams.
Secretary	Keeps meeting notes, organizes records, tracks tasks, and maintains club documents.
Membership Coordinator	Welcomes new members, maintains the member list, shares meeting information, and helps students find ways to participate.

The Youth Executive Team works with Adult Advisors. For a project involving a partner organization, the team also follows the agreed project plan and any reasonable partner requirements.

Youth leadership roles may be reviewed each year. When a position becomes vacant, Adult Advisors may invite, appoint, or support a student selection process that is appropriate for the club's age range and stage of growth.

Leadership roles may be adjusted, paused, or reassigned when needed for student well-being, safety, availability, respectful conduct, or the effective operation of the club.

5.7 Functional Teams and Team Leaders

As Pack with Love grows, the club may establish Functional Teams to help carry out different parts of each project. Each team may have a student Team Leader who helps organize tasks, communicate progress, and make sure the team's work supports the project theme, partner needs, and overall mission of the club.

Functional Team	Main Responsibility
Program Planning Team	Helps decide the yearly theme, goals, care items, and timeline.
Art and Design Team	Designs backpack artwork, activity pages, and theme-based gifts.
Fundraising and Outreach Team	Prepares fundraising materials, donor communication, presentations, and community outreach.
Logistics and Supply Chain Team	Tracks samples, production, purchasing, packing, and shipping under Adult Advisor guidance.
Communications and Documentation Team	Shares updates, keeps meeting notes, collects approved photos and stories, and prepares a final impact report.

Team Leaders organize tasks, report progress to the Youth Executive Team when applicable, and make sure their work supports the yearly theme and mission of Pack with Love.

5.8 School Chapters and Local Chapters

As the club grows, Pack with Love may establish School Chapters or Local Chapters in schools, churches, or communities. A Chapter may be established only with approval from the central Adult Advisor team and with an identified Adult Advisor or sponsoring

organization. Each Chapter follows applicable school, church, community, and partner rules.

Chapter leaders may help with project awareness, donation drives, handmade gifts, student recruitment, service-hour tracking, local presentations, records, and project updates. Chapters may not independently open donation channels, make financial commitments, use partner names or logos, or represent Pack with Love publicly without Adult Advisor approval.

5.9 Leadership Growth and Succession

Pack with Love is designed to grow with its student leaders. As founding elementary and middle school students enter high school, they may become High School Student Mentors and take on additional project-management responsibilities under Adult Advisor supervision. They can guide younger students, support design leaders, share lessons learned, and help the club remain sustainable while protecting its original purpose.

6. What Students Can Do

The roles below describe individual student contribution options. Students may serve within a Functional Team, or they may support a project in a smaller individual role without joining a formal team. Roles may change from year to year depending on the theme, project needs, and Adult Advisor guidance.

Student Role	Examples of Contribution
Gift Designers	Design care cards, school-supply labels, activity pages, bookmarks, coloring pages, or other theme-based gifts.
Handmade Gift Makers	Create encouragement cards, drawings, bookmarks, or simple handmade items.
Fundraising and Support Helpers	Help explain the project through letters, presentations, donation campaigns, school or church announcements, thank-you messages, and outreach. They may also help track approved donated items and prepare simple project updates under Adult Advisor guidance.
Outreach and Promotion Helpers	Create flyers, slides, short videos, posters, simple presentations, and project updates.
Project Recorders and Thank-You Writers	Take notes, track progress, save approved photos, write updates, and prepare thank-you messages to supporters.

Every student can use their gifts, creativity, and heart to serve others. No single role is more important than another; each role helps bring love and hope to children and communities.

7. Founding Adult Advisors and Mentors

Because Pack with Love involves minors, donations, purchasing, production, and sometimes international shipping, Adult Advisors serve in two connected roles: advisors for official responsibilities and mentors for student growth. Their role is not to replace

student leadership. Adult Advisors provide guidance, structure, supervision, safety, and approval for high-responsibility decisions while helping students learn how to lead, communicate, plan, create, serve, reflect, and grow.

Adult Advisors are responsible for or deeply involved in:

- student mentoring, parent communication, safety, safeguarding, privacy, and compliance matters;
- donation channels, budgets, receipts, payments, financial records, and fundraising transparency;
- contracts, supplier communication, factory communication, production decisions, purchasing, packing, shipping, and customs-related decisions;
- official promises, public statements, partner communication, and project agreements;
- review of fundraising materials, public messaging, and Annual Impact Report information; and
- confirmation that each project fits the needs and guidance of the partner organization.

Adult Mentorship Commitment

Adult Advisors seek to help students grow through meaningful responsibility. They may teach, ask questions, review ideas, share professional knowledge, help students solve problems, and encourage reflection after each project.

Adult Advisors build the guardrails for safety, finances, legal responsibilities, purchasing, logistics, and partner commitments. Student leaders are encouraged to carry the vision, develop ideas, create materials, communicate the project, serve on teams, and grow into stronger leaders over time.

Adult Advisors build the guardrails; student leaders help carry the vision forward.

7.1 Founding Adult Advisors

Adult Advisor	Role	Main Responsibility
Xiaohong Duan	Lead Adult Advisor & Student Leadership Mentor	Provides overall supervision, student mentoring, safeguarding, parent communication, partnership coordination, and review of public messaging. Helps students grow in leadership, planning, communication, and thoughtful service while making sure each project supports the mission, values, safety standards, and long-term direction of Pack with Love.
Kevin Jialin Sun	Adult Finance Advisor & Financial Learning Mentor	Provides Adult Advisor guidance on budgeting, financial literacy, fundraising transparency, cost planning, record review, and impact reporting. Helps students learn age-appropriate financial skills through simple activities such as understanding the estimated

		cost of one complete backpack set, comparing core and optional project items, learning how production, packing, shipping, and delivery costs affect a project budget, setting fundraising goals, and explaining how donations support approved project items and services.
Jiangang (Tony) Yao	Production and Logistics Advisor & Project Operations Mentor	Provides Adult Advisor guidance on supplier and factory communication, samples, purchasing, production, quality review, packing, shipping, and transportation planning. Helps students understand how creative ideas become practical products, including the age-appropriate basics of ordering, sampling, production, manufacturing workflow, quality review, and delivery planning.
Joyce Xie	Overseas Operations Advisor & Business Mentor	Provides Adult Advisor guidance on overseas production, quality review, delivery planning, and local-market realities, drawn from many years of operating food manufacturing and wholesale businesses in Papua New Guinea. Helps students understand, in age-appropriate ways, how procurement, production, quality, delivery, and local markets work together in real overseas operations.
Dr. Christopher Leo, MD, PhD, FACP	Health & Safety Advisor & Service Trip Mentor	Provides Adult Advisor guidance on travel health, hygiene, personal and environmental safety, and safeguarding for the club's service activities. A physician specializing in Internal Medicine and Geriatrics and an Assistant Professor at Duke University, he leads pre-departure training for any travel-related service activity, covering health, safety, appropriate conduct with local children and communities, cultural respect, and basic response to unexpected situations.

7.2 Future Adult Advisor Roles

As Pack with Love grows, additional Adult Advisors may be invited when needed. Future roles may include partnership, safeguarding, education, fundraising, communications, or other advisory responsibilities that support the club's mission and protect students and children.

8. Donation, Safety, Privacy, and Partner Guidelines

Donations and Financial Gifts

All project funds must be received, held, and spent through a properly authorized adult-managed financial channel. Depending on the project, this may be a fiscal sponsor, nonprofit partner, church, school, or other approved organization or account that is legally and operationally appropriate for the project.

Students and student leaders may not use personal Venmo, Zelle, Cash App, personal PayPal accounts, or other personal payment platforms to collect or hold project money.

Only the organization or authorized adult managing a donation channel may issue any receipt or tax-related document. Whether a contribution is tax-deductible depends on the receiving organization and applicable law.

Donated Items

Donated items must be clean, safe, age-appropriate, culturally appropriate, and approved by Adult Advisors before inclusion. The club avoids items that are broken, expired, unsafe, too heavy to ship, unsuitable for children, or impractical for the destination.

Student Safety and Parent Permission

Student participation in meetings, service activities, fundraising events, and public presentations follows parent or guardian permission, applicable school or church rules, and Adult Advisor guidance. In-person activities must be supervised by at least one Adult Advisor.

Students do not independently handle official payments, contracts, supplier negotiations, international shipping decisions, or other high-responsibility commitments.

Photos, Stories, and Privacy

Photos, stories, and personal information of children or families may be used only with the approval of the relevant project partner and in accordance with privacy and safeguarding rules. Students may not publicly share names, medical information, family details, or sensitive personal stories without approval.

Partner Names and Logos

Pack with Love may describe approved collaborations truthfully. Any use of a partner's name, logo, photos, program materials, or official message requires the permission of that partner. Pack with Love does not represent, speak on behalf of, or make official statements for a partner organization unless specifically authorized in writing by that partner.

Voluntary Participation

No child or family should be required to attend a church activity, share personal information, or participate in a follow-up activity in order to receive a backpack or care item. Any follow-up opportunity should be voluntary, partner-led, and managed according to appropriate privacy, safeguarding, and consent requirements.

8A. Educational Programs and Program Fees

Pack with Love, together with its Adult Advisors, may offer optional educational programs (such as the project-based math course From Data to Impact) that support the club's mission and teach age-appropriate real-world skills.

Membership remains free. Consistent with Section 4, membership in Pack with Love never requires a financial contribution. Educational programs are optional; no student is required to enroll in any paid program to join, participate in, or lead within the club. Enrollment in a club-affiliated program may include club membership, but membership is always also available at no cost.

Program fees are not donations. Tuition or program fees pay for instruction, materials, and program operation. They are collected and managed through adult-managed channels, are separate from project donations, and do not entitle the payer to fundraising credit or tax-deduction treatment as a charitable gift. This distinction is disclosed to families before enrollment.

Proceeds from program activities. When a program's activities generate sales proceeds for a club project (for example, class sales events), the net proceeds — revenue minus real product costs — are contributed to the project's shared goal through the adult-managed financial channel, consistent with Section 8. Students do not personally collect, hold, or manage program funds or sales proceeds.

Program policies. Each paid program publishes its schedule, fees, refund policy, and attendance expectations before enrollment. Program-level policies must be consistent with this Charter; where they conflict, this Charter controls.

9. How We Make Decisions

Pack with Love makes decisions in a way that allows students to participate meaningfully while keeping projects safe, responsible, transparent, and sustainable.

Founding-Year Decision-Making

During the founding year, Joanna Zhang, Ethan Yao, Vera Sun, Gabriel Leo, and Dino Wang help plan the first-year project and support the yearly theme. Students may propose ideas and participate in age-appropriate ways. Recommendations are reviewed with Adult Advisors before official commitments are made.

Adult Advisors provide guidance and approval for official decisions, especially fundraising, finances, production, purchasing, logistics, contracts, safety, privacy, and public communication. When a project involves a partner, the partner confirms its own needs, program fit, and any use of its name, logo, materials, or distribution network.

Adult Approval and Official Commitments

Student leaders may develop ideas and make recommendations. However, no student leader, parent volunteer, or individual Adult Advisor may independently make a financial commitment, sign a contract, approve a supplier, promise a donation outcome, represent a partner organization, or make a public commitment on behalf of Pack with Love without the required Adult Advisor approval.

The Adult Advisor team may establish written approval procedures for spending, supplier selection, public fundraising, partnership agreements, and other high-responsibility decisions. Any actual or potential conflict of interest should be disclosed before a final decision is made.

Future Decision-Making

As the club grows, the Youth Executive Team may discuss ideas, organize feedback, and make recommendations. Functional Team Leaders provide input from their teams. School and Local Chapter Leaders may share local needs and feedback, but they do not independently change the annual theme, use of funds, product design, fundraising rules, or overall direction.

10. Meetings and Communication

The club may hold meetings during the active project season, including full club meetings, Youth Executive Team meetings, design team meetings, fundraising and outreach check-ins, Adult Advisor check-ins, Chapter leader meetings, and reflection meetings.

Project Recorders keep simple notes with:

- meeting date;
- people present;
- main discussion points;
- decisions made;
- tasks assigned, including the responsible owner and deadline; and
- next steps.

Important updates should be shared clearly with students, parents or guardians, Adult Advisors, donors, and project partners when appropriate.

11. Annual Impact Report

Each year, the club should prepare a simple Annual Impact Report. It may include:

- yearly theme and project purpose;
- number of backpacks or care items prepared;
- items included;
- funds raised and high-level use of funds;
- unit cost analysis, when appropriate;
- project goal completion rate;
- student roles and leadership growth;
- approved photos and design process;
- production, packing, and shipping updates;
- distribution feedback and lessons learned;
- partner feedback on which items were most useful;

- lessons about whether future activities, reusable materials, or follow-up resources would be helpful;
- thank-you messages to donors and supporters; and
- recommendations for the next year.

Photos, stories, and distribution feedback are included only when they are approved by the relevant partner and follow privacy and safeguarding standards.

12. Code of Conduct

Members of Pack with Love are committed to maintaining a positive, safe, and welcoming environment for everyone. Our Code of Conduct includes the following core commitments:

Club Commitment	What It Means
Respect	We treat every individual with dignity and kindness, honoring diverse perspectives and backgrounds.
Safety	We prioritize the physical and emotional well-being of our members and the children we serve, following all Adult Advisor safety protocols.
Inclusivity	We ensure that our activities are accessible and welcoming to all students who wish to serve, regardless of their background.
Operational Integrity	We act with honesty and transparency in all club matters, especially regarding fundraising, communication, and project management.

Response to Conduct Concerns

Depending on the seriousness of the concern, Adult Advisors may provide coaching, require an apology or corrective action, limit participation in a specific activity, pause a student's leadership role, contact a parent or guardian, or remove a participant from an activity or the club when necessary to protect safety, respect, and the mission of Pack with Love.

13. Dispute Resolution Process

To maintain our club spirit and resolve disagreements fairly, Pack with Love follows a tiered dispute resolution approach.

Safety Exception

Concerns involving safety, bullying, harassment, discrimination, suspected abuse, financial misconduct, privacy violations, threats, or serious misconduct must be reported directly to an Adult Advisor or the appropriate school, church, or partner authority. These matters should not be handled first through student-led informal discussion or peer mediation.

Student-Led Informal Discussion

For ordinary disagreements, students should first address the matter directly and privately with the students involved in a spirit of mutual respect.

Mediation by Youth Executive Team

If the issue is not resolved, the Youth Executive Team may provide peer mediation to help reach a collaborative solution, when appropriate for the students involved.

Escalation to Adult Advisors

For serious matters or unresolved disputes, Adult Advisors provide a formal review and final resolution to ensure safety and compliance with club values.

14. Our Club Spirit: Live It Out Loud!

Club Spirit	What It Means
Love First	We serve with open and caring hearts.
Joyful Creation	We create with passion, imagination, and joy.
Team Power	We work together — stronger as one.
Deep Respect	We see and value every child, family, teammate, and partner.
The Message	Every project can carry a powerful message of love and hope.

15. Charter Review and Amendments

This Charter may be reviewed annually or when needed as Pack with Love grows. Proposed amendments may be suggested by student leaders, Adult Advisors, parents or guardians, or approved partners.

Amendments become effective only after review by the Youth Executive Team, when applicable, and approval by the Adult Advisor team. Any amendment affecting safety, financial practices, legal responsibilities, partner commitments, or student privacy must receive Adult Advisor approval before implementation.

Amendment record. Amendment No. 1 (September 2026): added Sections 5.4 and 5.5 (Founding Community & Outreach Leader; Founding Hearts & Encouragement Leader); expanded Section 7.1 to five Founding Adult Advisors; added Section 8A (Educational Programs and Program Fees); updated Section 9 founding-year names and the Charter version line.

16. Charter Status

This Student Charter is an internal governance and guidance document for Pack with Love. It does not by itself create a separate legal entity, tax-exempt status, employment relationship, or authority to issue tax receipts.

Pack with Love is independent, youth-led, and partnership-minded.

We create with love, serve with purpose, and grow together.
